FIRST INFORMATION AND  
CALL FOR PAPERS

## The goal of Conference

**International conference** "Innovation as a Function of Engineering Development " will be held in Nis (Serbia), on the 25<sup>th</sup> and 26<sup>th</sup> of November, 2011.

The main objective of the Conference is to promote the experiences and new technologies in innovation in all fields and disciplines.

Students and young researchers are regarded as spiritus movens of scientific and cultural progress and most reliable means of achieving the widest possible dissemination of presented ideas. Moreover, effective results can be realized exclusively with active involvement, unbiased judgment and constructive input of all the innovation processes. In that context, conference themes were carefully selected to provide focus on up-to-date issues in field and encourage productive discussion bringing fresh and original insights and concepts at the forefront.

We would like to invite you to submit your abstracts and to attend the Conference in order to share your achievements in the innovation experiences and technological methodologies applied in these fields. The deadline for submitting abstracts is the 15<sup>th</sup> of July 2011.

ISBN publication will be produced with all the papers submitted.

In addition to the technical issues of the conference programme, our website provides you with tourist information of Nis.

We look forward to seeing you in Nis!

The Organising Committee
