Best Diploma Projects **2015**

web: <http://eam.uauim.ro> e-mail: eam2015@uauim.ro

Registration procedure

Each Architecture School designates two Best Diploma Projects.

In case of team diploma projects, only one student may upload the projects on the competition platform.

The school representative will send a message to eam2015@uauim.ro indicating the school name and the email addresses of the students (one email address per selected project). A simple text message will do; please do not attach any files or other information.

The competition organizers will enable student access to the online platform in at most 48 hours and will notify the student to register and upload the files.

This concludes the registration procedure.

The students will NOT receive confirmation of their registration by email. The simple upload process on the platform will confirm successful registration by displaying a screen message.
