

Inspireli awards- The competition- Cooperation with CTU in Prague

Hello,

We would like to ask you, on behalf of CTU in Prague, STU in Bratislava and BME in Budapest, to involve your university in the jubilee 5th annual of the international student competition INSPIRELI AWARDS, to inform your students about international visibility (see appendix) and involved the design of the Burkina Faso Amphitheater at your university in the summer term.

We also offer to your university to be involved as a co-organizer . As a result, your university will be actively promoted worldwide with your students in the INSPIRELI AWARDS project.

The INSPIRELI AWARDS competition was created to support students of architecture regardless of their economic, ethnic or social conditions in the form of a global competition show. INSPIRELI AWARDS does not force anyone to create designs that do not have their merits in their country or culture but instead invite them to share their unique assignments and solutions with the rest of the world. The main theme of INSPIRELI AWARDS is talent and therefore every student or group of students can upload any school project to solve problems in their part of the world. INSPIRELI AWARDS is the largest international student competition in architecture that has already connected students from 136 countries.
