

Faculty of Civil Engineering and Mechanics

Jiangsu University

THANKS

Faculty of Civil Engineering and Mechanics

Jiangsu University

301, Xuefu Road, Zhenjiang, 212013, Jiangsu Province, P. R. China

Tel.: +86-511-8061110

Email: tmlxxy@ujs.edu.cn

Website: <http://civil.ujs.edu.cn/index.php/eng>

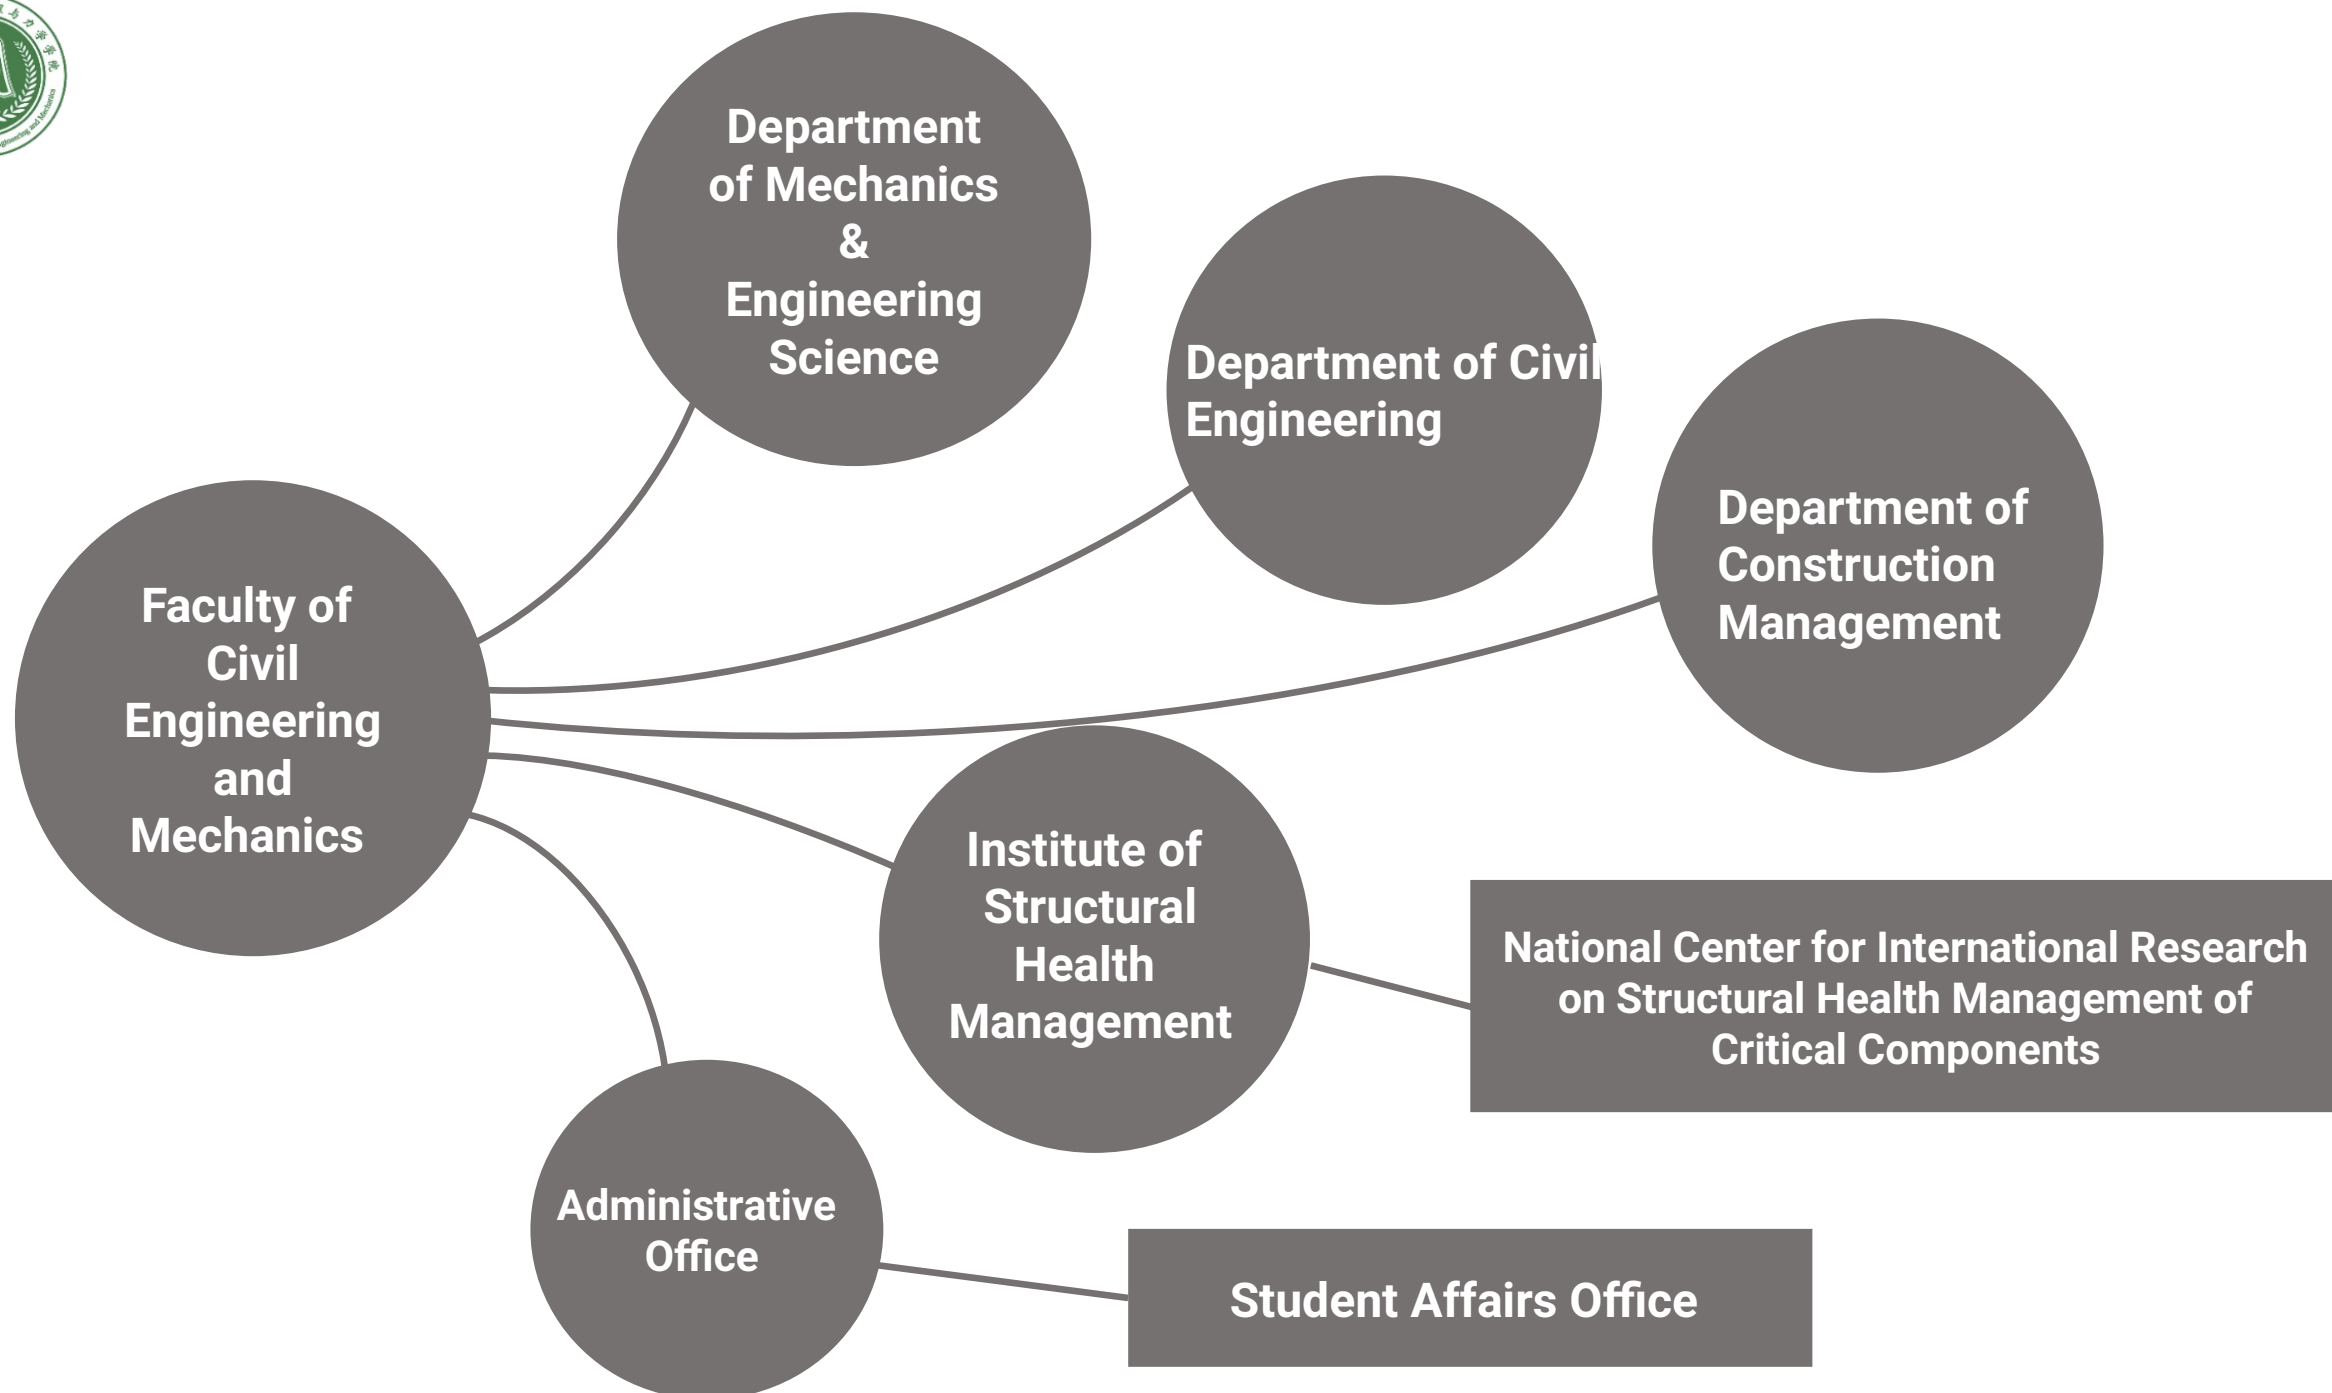

18 professors and 42 associate professors

15 Ph.D. supervisors, 58 M.D supervisors

76 members having Ph.D. degree

60 with overseas study experiences

**Faculty
&
Staff**

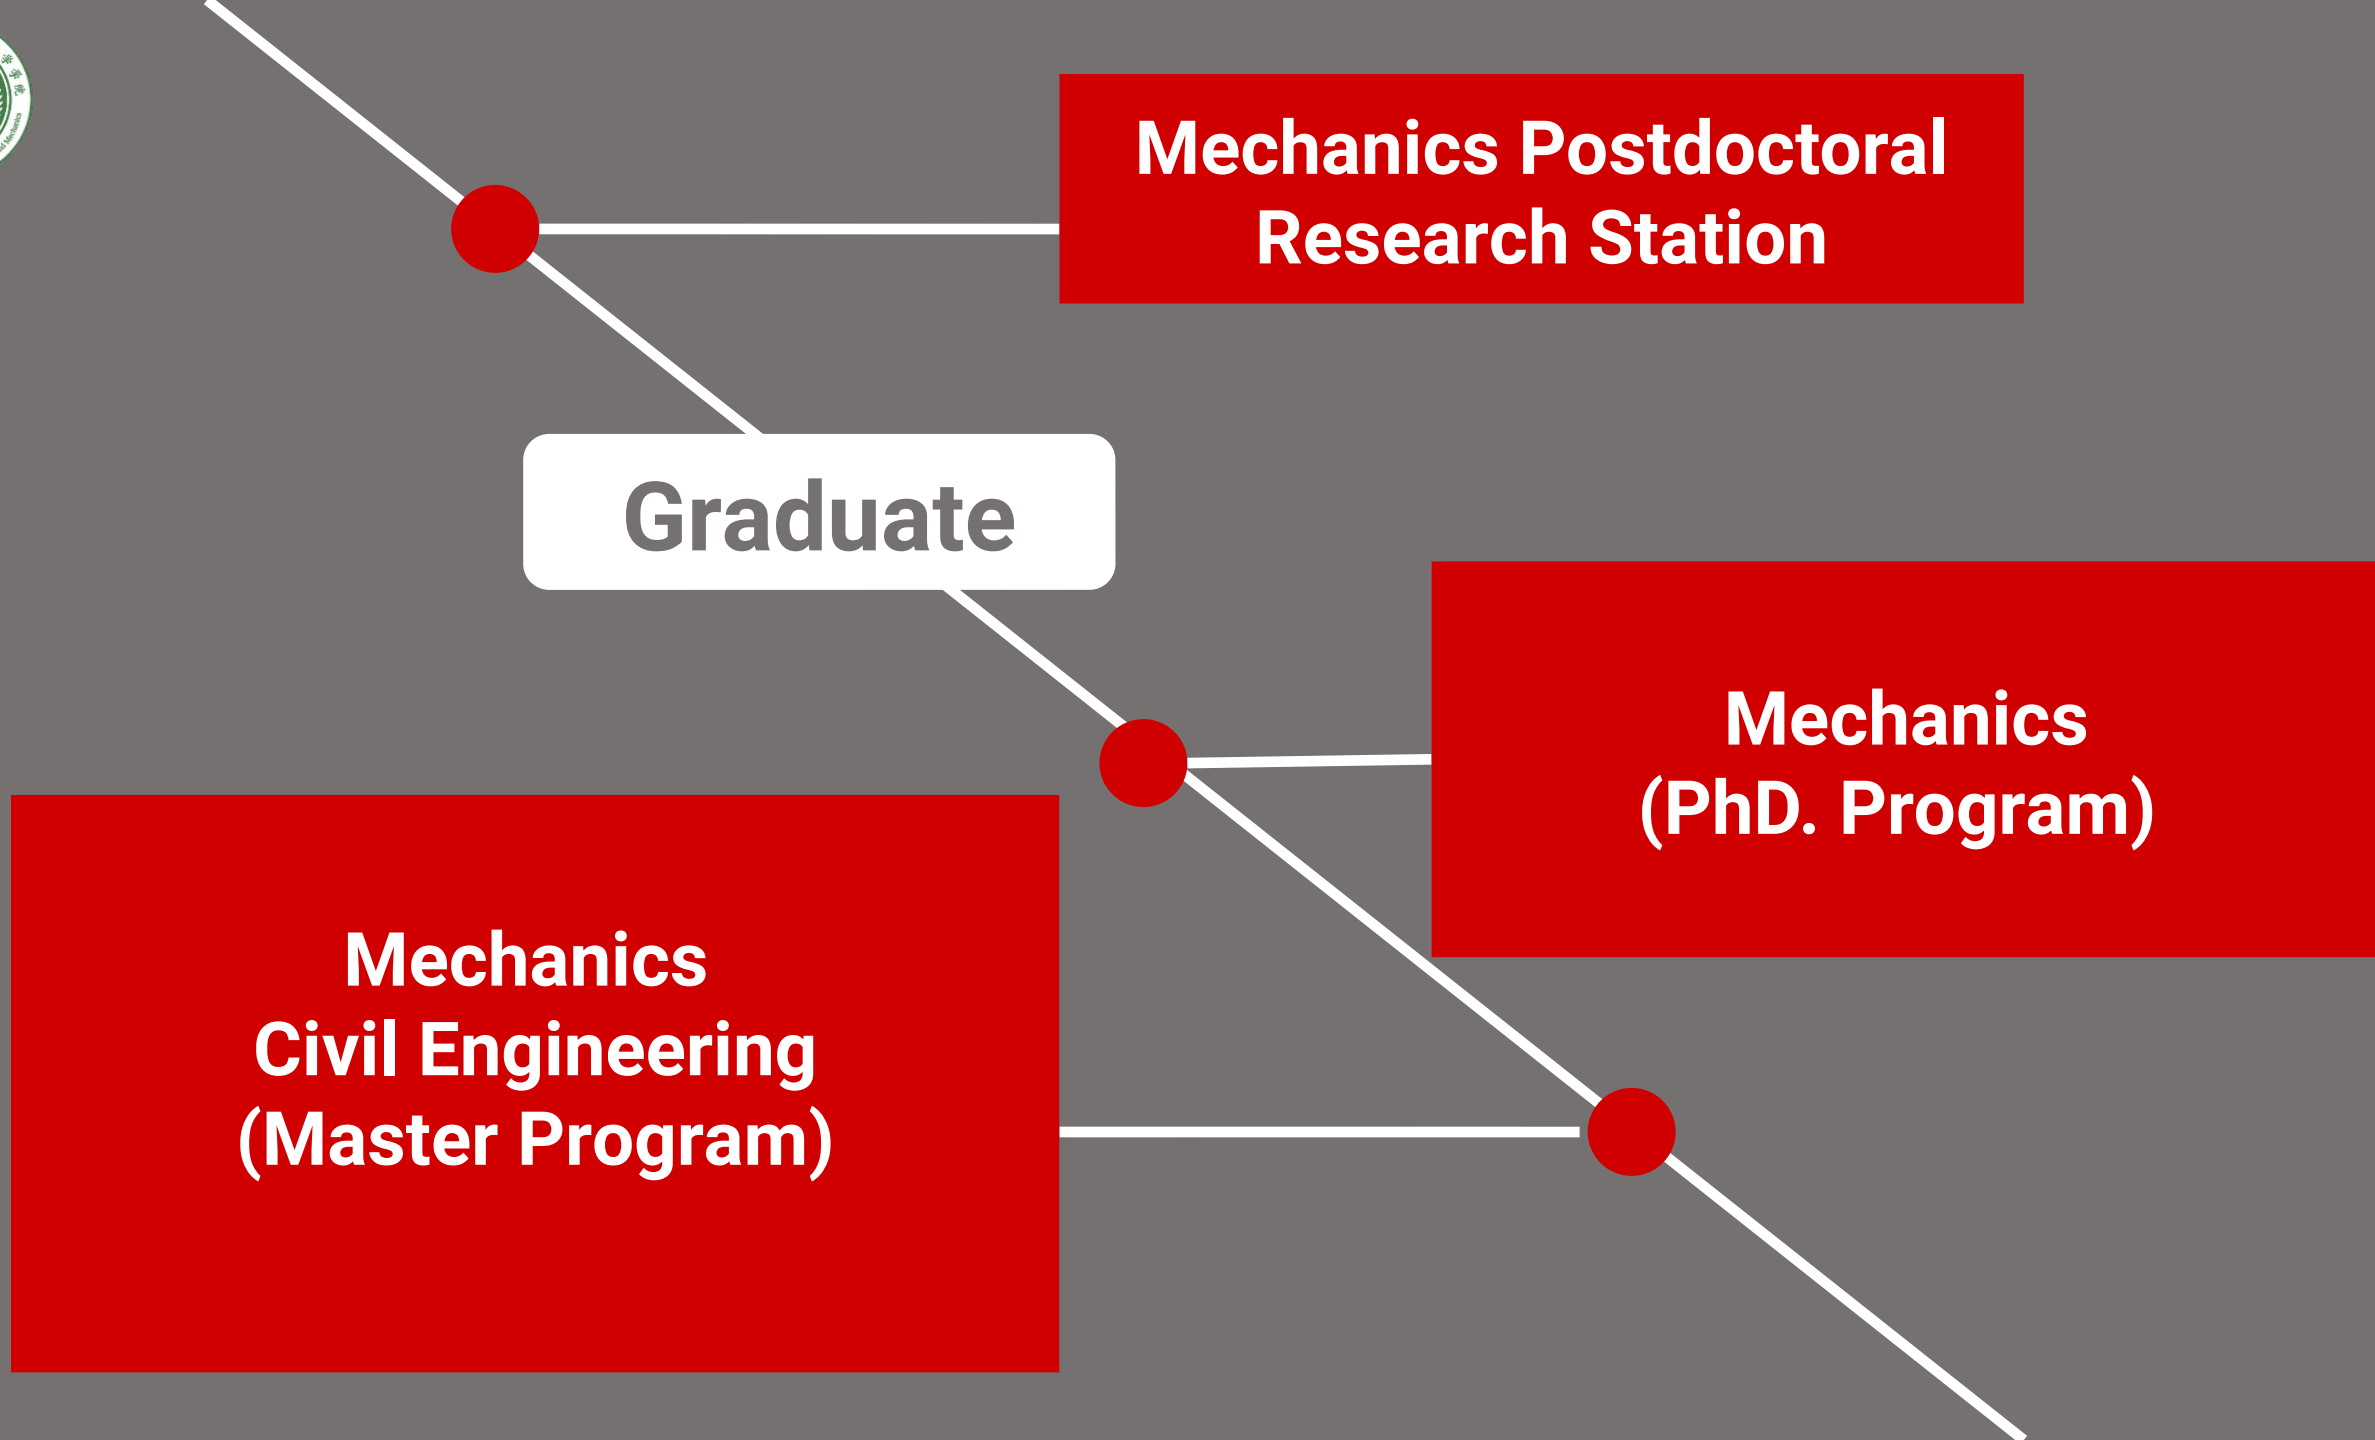

**Mechanics Postdoctoral
Research Station**

Graduate

**Mechanics
(PhD. Program)**

**Mechanics
Civil Engineering
(Master Program)**

Civil Engineering

Engineering Mechanics

Construction Management

Intelligent construction

1

2

3

4

Undergraduate

Graduate

Mechanics Postdoctoral Research Station

Solid Mechanics

Management Science and Engineering

Highway and Railway Engineering

General and Fundamental Mechanics

Engineering Mechanics

Structural Engineering

Construction and Civil Engineering

**Disaster Prevention & Reduction and
Protective Engineering**

About 1000 students, including 60 overseas students.

Lab Platform

**National Center for
International
Research on
Structural Health
Management of
Critical Components**

**Provincial Research
Center — Mechanical
and Engineering Structural
Damage Diagnosis and
Management of
Engineering Technology**

**Ministerial Level Key Lab
— Mechanical structure
damage detection technology
laboratory**

**Training for Comprehensive
Innovation Practice Platform of
the International Construction
and Management Talents "the
Belt and Road"**

**Provincial Innovation Platform
— Vibration and Noise
Technical Engineering
Laboratory**

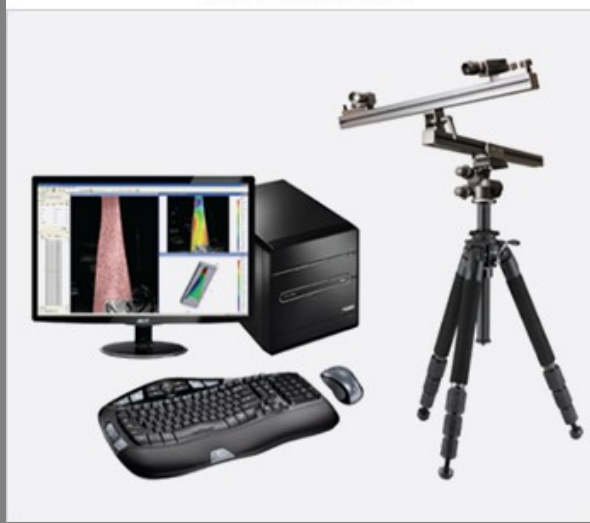

Research Equipment

Laser Doppler vibrometer

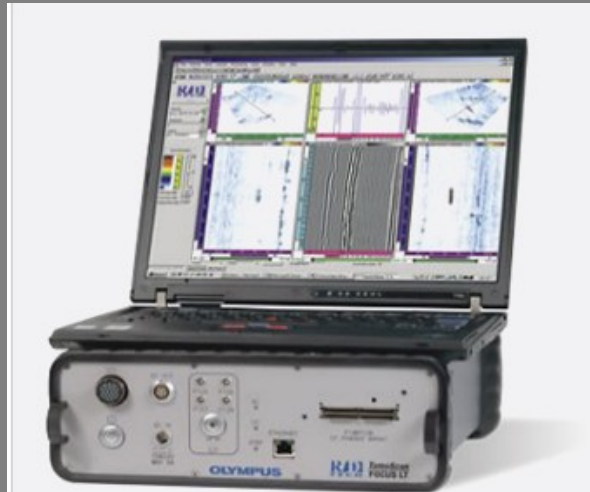

3D full-field deformation measuring instrument

Atomic force scanning probe microscope

MTS test system

Ultrasonic phased array

Structural experimental system

- ◆ Test method for mechanical properties of matrix materials of Jiaolong
- ◆ High-speed railway Qingyijiang River bridge construction monitoring
- ◆ Nanjing Youth Olympic project construction monitoring
- ◆ Zhenjiang gymnasium project construction monitoring
- ◆ High strain dynamic testing of pile foundation in Suning Square project of Zhenjiang

Innovation and Practice Ability Training

Model design and production process

Sino-foreign students visit and attend practice in Anhui Taiji-cave National Geopark

Overseas students make models in Innovation Practice Center

Overseas students experience virtual simulation

Sino-foreign cultural exchange

留学生进社区写春联

Foreign students wrote Spring Festival Couplets in the community

中外学生过腊八

Sino-foreign students celebrated Laba Festival

中外学生包饺子

Sino-foreign students made dumplings

中外学生包粽子

Sino-foreign students made rice dumplings

中外学生植树

Sino-foreign students planted trees in the campus

中外学生参加团支部活动

Sino-foreign students attended the Youth League Branch Talent Competition

Sino-foreign cultural exchange

中外学生录制专业宣传片

Sino-foreign students recorded a promotional video for civil engineering

中外学生为10周年院庆录制歌曲

Sino-foreign students recorded a song for the 10th anniversary of faculty

外国留学生参观扬州个园

Foreign students visited Ge Yuan Garden of Yangzhou

外国留学生参观南京青奥体育公园

Foreign students visited Nanjing Youth Olympic Sports Park

外国留学生参观盾构机

Foreign students visited shield machine

外国留学生参观在建工程

Foreign students visited construction in progress
